B. Child Interviews

Wood County Job and Family Services: Child Protective Services Unit and law enforcement officers will be the primary individuals who may conduct an interview of the alleged child victim. Wood County JFS-CPS by mandate must always conduct a face-to-face interview with the alleged child victim.

Prior to conducting an interview, the social worker will assess the most appropriate method of interviewing to be used. This will be based on the age of the child, the allegations of the report, and the possible trauma to the child.

Immediate consideration shall be given to the following:

1. Assessment of the victim's immediate need for protection and whether the victim is safe from the alleged perpetrator or related harm.
2. The need for medical and/or mental health treatment for the victim, family members, and witnesses.
3. The need to re-contact and interview the "reporter."

4. The need to preserve physical evidence.
5. The logistics of the victim, witness, and suspect interviews (i.e. time, place, and order).

Any law enforcement officer or social worker who interviews an alleged child victim shall be properly trained in conducting interviews with alleged child victims. When a child victim is less than ten years old, the interview of the child shall be conducted solely by the Wood County Job and Family Services: Child Protective Services Unit, unless a joint interview is considered appropriate after consulting with the Wood County Prosecutor's Office. Wood County JFS-CPS and law enforcement may jointly interview the alleged child victim if the child is ten years old, or older. It is anticipated that the prosecutor may need to meet with the child in order to discuss the prosecution or otherwise prepare the child for court proceedings, to include reviewing the incident or incidents.

Every effort will be made to minimize the number of interviews conducted and the number of physical examinations a child receives for investigation purposes. Duplication of interviews will be avoided. Members of the team involved in the investigation will work together to arrange interviews at such a time that a representative from each agency is available to be present. If possible, all sexual abuse interviews, except prosecution interviews, should be videotaped.

Each case will be reviewed individually in order to determine the most appropriate location for the interview of an alleged child victim. Whenever possible, the child interviews, except prosecution interviews, shall take place at the Wood County Department of Job and Family Services interview room that is equipped with a video monitor. Under no circumstances should a child be interviewed with more than two interviewers and one other person present (such as a support person or representative from the school). Should the interview need to take place at the child's school, when practical the school shall be contacted and an appointment made. In some instances, a counselor or mandated reporter may be requested to follow up with the child to provide support and minimize trauma to the child.

C. Removal of a child from his/her home

If law enforcement and/or JFS-CPS determine that a child cannot safely remain in his or her home, the parents will be requested to make a safety plan. If a safety plan is not feasible, the Wood County Department of Job and Family Services will contact the Prosecutor's Office to determine if requesting an Ex-Parte Emergency Order is appropriate.

In cases in which there is suspected physical or sexual abuse, or law enforcement and JFS-CPS determine that a child cannot remain safely in his or her home, the Wood County Prosecutor's Office should be notified and consulted as early in the investigation as is practical under the circumstances.

Alleged perpetrators should not be interviewed by more than two individuals at a time. All parties will communicate to coordinate and keep one another informed of alleged perpetrator interviews.

A third party investigation shall consist of an investigation by Wood County JFS-CPS, or by an outside agency, and the law enforcement agency having jurisdiction. A verbal request will be made by the social worker to law enforcement within 24 hours of the receipt of the report. Both JFS-CPS and law enforcement shall make a written report of their findings. Both reports shall be maintained in the case record.

10. Handling and Coordinating Out-of-Home Abuse Investigations

Cases alleging child abuse/neglect which occur in an out-of-home care setting such as school, day care, foster home, etc. will be reported to the appropriate law enforcement agency. E. Law Enforcement Responsibilities and Procedures

1. Alleged Perpetrator Interviews

Wood County JFS-CPS must complete investigations within 45 days. The law enforcement officer assigned to the investigation should be mindful of the deadline and discuss time constraints with the social worker. The social worker and law enforcement should decide whether the alleged perpetrator should be interviewed jointly, separately or if the interview should be waived by the social worker in his/her investigation.

In cases being investigated through the Child Abuse Task Force, the procedure set forth in Section D.8. of this Memorandum of Understanding shall apply.

2. Child Interviews

When law enforcement receives a report of sexual abuse involving a minor, JFS-CPS must be contacted immediately. Depending on the nature of the sexual abuse report, the case may be investigated through the Child Abuse Task Force.

Wood County JFS-CPS will report information about missing or runaway children to the law enforcement agency with appropriate jurisdiction and provide any assistance and cooperation needed, including access to all information the agency may possess that would assist in dealing with this matter.

5. CONFIDENTIALITY OF INFORMATION

In accordance with Section 2151.421 of the Revised Code, and the applicable sections of the Administrative Code, each report and investigation of alleged child abuse/neglect is confidential and may be shared only when dissemination is authorized for the reasons stated in the Ohio Administrative Code rule, pursuant to Ohio Revised Code, Ohio Rules of Juvenile Procedure, Ohio Rules of Criminal Procedure, or by court order.

The identity of the reporter or referral source shall be considered a part of the report, and shall not be released or affirmed by the Wood County JFS-CPS except as described below.

The reporter will be informed that a subpoena for court testimony may be issued if court intervention is necessary. The Wood County JFS-CPS is authorized to release the identity of the reporter to Ohio Department of Job and Family Services staff with supervisory responsibility for Wood County JFS-CPS, another public children's services agency investigating a child abuse or neglect report involving a principal of the case, law enforcement officials, and the County Prosecutor's Office when investigating an allegation of child abuse or neglect or a person making a false report of child abuse/neglect.

The Wood County Job and Family Services: Child Protective Services is authorized to disseminate information only to those who are specifically indicated in Ohio Administrative Code Rule 5101:2-33-21. A copy of this rule is available at Wood County JFS-CPS for any person or agency who requests a copy.

6. CROSS-REFERRAL OF INFORMATION
